- Heavy-duty bow gates for cattle yards and cattle handling systems
- No miss two-way striker plate and spring-loaded slam latch for bow gates ensure the gate closes securely every time
- Bow Gate hinges feature poly bushings to prevent seizing
- Bow Gates swing a full 360°
- Option of standard height or high bow gates for use on horseback
- 3" rectangular rails provide a large visual barrier
- Thick rectangular bars provide a larger surface area for impact, and drastically reduce bruising
- Crafted with 16-gauge steel for enhanced durability and stability and 13-gauge posts
- Built with locally sourced US and Canadian steel
- Available in 4 ft walk through cattle panel gate (standard only), 8 ft bow gate (standard and high bow), and 10 ft bow gate (standard and high bow) dimensions
- No stays required, thanks to high-tech engineering and quality design features
- Unique 4-way pin connectors offer flexibility for cattle handling system design
- Can be used to craft full cattle handling systems or simply replace broken pieces of your current setup
- Cattle panel clips and pins included
- Semi-permanent bow gates that can be moved at any time to suit your system as it changes
- Pair perfectly with Arrowquip's cattle panels for a custom design
- Backed by Arrowquip's exclusive 3 Year Warranty
