- Heavy-duty no bow gates for cattle corrals and cattle handling systems
- New two-way slam latch for secure closure every time
- New hinge system allows for easy gate removal and ability to bolt or weld gate to an existing system as a yard gate
- Hinge system features poly-coated bushings to prevent seizing
- No Bow Gates swing fully open 360°
- Bottom frame eliminates risk of injuries seen with bow gates
- 3" rectangular rails provide a large visual barrier
- Thick rectangular bars provide a larger surface area for impact, and drastically reduce bruising
- Crafted with 16-gauge steel for enhanced durability and stability and 13-gauge posts
- Built with North American steel
- Cowboy Latch option
- Added safety latch for extra security for holding cattle overnight, eliminates need for a chain
- Can be used to craft full cattle handling systems or simply replace broken pieces of your existing setup
- Cattle panel clips and pins included
- Semi-permanent no bow gates that can be moved at any time to suit your system as it changes
- Pair perfectly with Arrowquip's cattle panels for a custom design
- Backed by Arrowquip's exclusive 3 Year Warranty
