*Call For Prices On Converting Alleys To Hydraulic Operation!*

# Portable Alleyway

*Our Portable Alleyway is the fastest, easiest, and safest way to process cattle in a straight line!*

*The latest version of our Portable Alley features a side swing gooseneck hitch for quick and easy setup. It also includes no-backs and side squeezes that are adjustable and undated heavy duty spring loaded jacks that operate simultaneously. With the addition of brass bushings to hinge points, this is undoubtedly the quietest alley produced in the market today!*

**New Quieter Operation!**

*All hinge points and moving parts now have oil impregnated brass bushings to reduce noise levels and increase longevity!*
